EDV-TZA-6F-N1: Six Field Programmable Time Zone Display

The horizontal series time zone displays have bar segment time displays with a ten character dot matrix digital zone label below. The digital zone labels can hold any ASCII test string and is independent of the time zone parameters. Every display includes a high accuracy crystal oscillator and your choice of Ethernet, USB or RS232 interface for time zone parameter control.

- Enclosure: 80"L x 6.5"H x 2.5"D
- Bright 2.25" High LED Display with Six Time Zone Fields
- Bright, 1.2" High Alpha-Numeric Fixed or Moving Text Under Each Field
- Time of Day Clock in HH:MM in Military Time Format.
- PC Software to Create and Send Text Messages to Each LED Field
- Mounting Brackets

Electronic Displays Inc. programmable location LED digital world time zone displays feature 10 character alpha-numeric LED displays that can be programmed independently from the Time Zone. This is ideal if you want to change zones.
