How to update the MCS fonts on the EDV111 Marquee

1. Use the WZP software to clear the memory: Menu Comm/Clear memory
2. Modify the config.ini file: PC Software/bin/Config
3. Replace" **END USER** " to "**DEALER**" and save.
4. Use the WZP Menu: Comm/Update Firmware & MCS fonts/I want to update MCS fonts on the sign.
5. From the PC software (the CD with latest LMOS) browse to the LMOS 2.01.21 file
6. Use Add or remove the fonts that you need from the list in the Fonts for MCS Protocol box.
7. When done You may restart the sign

Update Firmware & MCS Fonts
